**GABSON**  
ENGINEERING SERVICES LTD.  
RC: 825725

## WHO WE ARE

**Gabson Engineering Services Limited** is a world-class firm that specialises in engineering, procurement, construction, and installation (EPCI) for the public and private sectors. Founded in 2009, we are a wholly-owned Nigerian establishment that seeks to deliver comprehensive solutions in the areas of FEED & Engineering Design; Facilities, Process & Pipeline Engineering; Fabrication & Construction; and Quality Assurance/Quality Control. We deliver global solutions in the areas of Facilities development, maintenance and repairs, equipments, Labour and materials supplies.

Our multi-disciplinary competence is sustained by *a hi-tech workforce suitably positioned to respond to the dynamics and challenges of a global business and our clients have benefitted from our irrevocable commitment to providing personalized service.*

Gabson Engineering Services Limited has two additional companies in support of its Engineering and Fabrication activities, namely:

**Gabson Professional School of Safety and Engineering Limited** trains welding, fitting, Scaffolding, Electricians, Masonry, Plumbing, Crane operators, engineering designs and drawing, HSE training and alike trainings;

**Gabson Standard Inspection Services Limited** Offers Quality inspection and Testing services to the Oil and gas, Marine, aviation and manufacturing sectors in ensuring quality and standard of jobs.

# OIL AND GAS SERVICES

Gabson Engineering provides technical service to the Oil & Gas industry at the upstream, midstream and downstream levels, offshore and onshore. We offer engineering solutions via a team of highly-qualified engineers, consultants and partners; Gabson Engineering Services Limited has experienced engineers with expertise across many engineering disciplines and can assist on a project from project development to completion.

## Engineering Support Services

Gabson offers a comprehensive range of engineering support services to meet our clients' needs at every stage of the design/engineering process. This translates into higher constructability, reliability and quality on every project. Gabson has capacity to support the following:

- Conceptual Studies
- Front End Engineering Design (FEED)
- Detailed Engineering Design
- Construction Engineering
- Installation Engineering
- Integrity Management

## Fabrication

Gabson capability concentrates on satisfying the in country / local fabrication requirements for the manufacturing, power, marine, oil and gas sectors.

### The areas of interests are:

Oil and gas structures such as, Buoys, jackets, bridges, decks, helidecks, suction & driven piles, boat bumpers, protectors, riser guards, pipe spooling, flare/vent booms, equipment modules, skids, PLEMS, FLEM, etc.

### Pipeline Fabrications

Pipeline & Flowlines (spur lines, trunk lines, pipeline network grids, pig traps & flowlines).

### Marine Support Fabrications

Manufacturing structures such as Steam plants, piping structures, pressure vessels, equipment plants and supports, conveyors, silos, storage plants etc

# CIVIL/BUILDING WORKS

Gabson Engineering Services Limited operates with a team of highly experienced and field-tested engineers and has been able to make an impact within the realm of civil engineering. We actively partner with organisations to execute their planned projects, some of which include:

- Consultation Services & Feasibility Studies
- Building Construction (Private & Public)
- Rehabilitation & Refurbishment of existing buildings
- Drainage System Construction
- Bridge Construction (including Load-bearing)
- Community Revitalisation Projects
- Warehouse & Workshop Fabrication & Erection
- Access Road Grading & Construction
- FEED Engineering & Engineering Design

The scope and range of maintenance, repair & operations (MRO) services offered extends to the following building services:

## Mechanical Building Services

- Complete mechanical building services installation
- Building Management & Control systems (BMS)
- Plumbing and drainage systems (MEP)
- Refrigeration systems & plants
- Firefighting and fire protection systems

## Electrical Building Services

- Complete electrical building services installation
- Indoor and outdoor lighting installation
- Earthing and lightning protection systems
- Fire detection and fire alarm systems
- Standby and emergency power systems, including generators and inverters systems

# CIVIL/BUILDING WORKS CONT'D

# MAINTENANCE & REPAIR SERVICES

Relying on its wide implantation network and its skills in key areas such as piping, pipeline, valves, mechanical works and metal construction, Gabson defines operating methods and mobilizes all the human, material and technological resources needed to implement maintenance plans set out by Operators, from daily interventions to major shutdown management.

We have capacity to do the following:

- Onshore and Offshore Facility Shutdowns and Maintenance Programs
- Offshore Facility Commissioning & De-Commissioning
- Brownfield Modifications
- Wellhead Maintenance
- Facilities Inspection & Testing
- Plant refurbishment and upgrades
- Pipeline and Valves inspection and maintenance

# PROJECTS

S/N	Name of Project	Project Scope	Name of Client	Completion Date	Location
1.	AKK Pipeline	Construction of 40" pipeline, Along Ajakuta/Abuja corridor	Oilserv / NNPC	2022	Trans Kogi Kaduna
2.	Tankfarm Upgrade	Re-routing of LPG piping and tank reconditioning and pump upgrade with relief valves	Sc Johnson & Son Nig. Ltd	2022	Isolo, Lagos
3.	Gas Spurline to Quantum	Construction of 8" and 10" Natural Gas internal pipeline to Boilers and Generators	Shell Gas / Quantum Packaging	2023	Igbesa Ogun state
4.	Boiler Upgrade	Replacement of boiler piping system and instrumentation	Sc Johnson & Son Nig. Ltd	2022	Isolo, Lagos
5.	External Works	Construction of drainage, road pavement and laying of interlocking stone on the road for 20,000 Hectares land for cooperative estate	Oando Cooperative Society	2023	Awoyaya Lagos
6.	CNG Installation	Construct and install 250bar High Pressure pipeline for the CNG installation and commissioning	Shell gas /Lagostar Wire & Cable	2023	Igbesa Ogun state
7.	Natural Gas internal Pipe	Construction and installation of 438mtrs 6" Internal Natural Gas Pipeline to Generators and Furnace	Shell gas /Lagostar Wire & Cable	2023	Igbesa Ogun state
8.	LPG Pipeline Modiciation	Design and construction of Gas LPG Pipes and Pump relocation installation with instrumentation of high and low pressure system	Sc Johnson & Son Nig. Ltd	2022	Isolo, Lagos
9.	Natural Gas Spurline	Construction and installation of 4" Natural Gas Spurline And Internal Piping Construction to boilers and Generators	Shell Gas / Intercil	2022	Agbara, Lagos
10.	LPG tankfarm layout revamp	Modiication and Upgrade LPG Tankfarm layout and Repair Of Lpg Tanks and Pipeline upgrade	Sc Johnson & Son Nig. Ltd	2022	Isolo, Lagos
11.	Building Renovation	Renovation of Federal Science & Technology College Welding And Fabrication Workshop	Gaslink	2022	Lagos, Yaba
12.	Gas Scrubber	Design, fabrication and installion of Gas Scubber system with low meter for Gas generator	Network E & P	2021	Eket, Akwa Ibom
13.	2 Storey building hospital	Construction of 2 Storey Building 100 Rooms Hospital With Elevator System	Imabridge Africa	2021	Uyo, Akwa Ibom
14.	Bouys and Plem Installation	Site Modiications, Assembly And Installations Of Two Calm Buouys And Plem	Orwell Solutions/Triumph	2020	Eko Support Base Lagos
15.	Mudmat subsea manifold	Fabrication Of Mudmats For Subsea Manifolds	First E & P	2020	Gabson Yard
16.	Gas pressure Improvement study	Gas Pipeline Engineering Design Study	Nestle Nig Plc	2019	Agbara, Lagos
17.	4" Natural Gas Internal dual piping	Construction and Installation of 4" Natural Gas Pipeline and Process Plants for generatos, boilers and furnace	Nestle Nig Plc	2020	Agbara, Lagos
18.	Gas Valves replacement	Sectional 14" & 8" Valves Replacement And Construction Of Gas valve Pits	Axxella(Oando Gas And Power)	2020	Apapa Lagos
19.	Fire Alarm System installation	Design, Procurement And Installation Of Fire and Gas alarm control and Fighting System	Contour Global	2020	Benin And Ikeja Lagos
20.	Natural Gas 8" PE pipe replacement	Replacement Of Sectional Damaged 8" PE Pipes and construction of valve pit	Axxella(Oando Gas And Power)	2020	Ikeja Lagos
21.	Project SLOOP production line	Layout Design, Procurement, Fabrication And Installation Of Gas And Processing Facility Tanks And Piping System For Gas To A Storage Of 180 Metric Tonnes And Flammable Liquid	Sc Johnson & Son Nig. Ltd	2019	Isolo, Lagos
22.	Pipeline design with hydraulic calculation	Detailed Engineering Design And Hydraulic Calculation	Bablinks Resources	2019	Warri, Delta
23.	Guest House Renovation	Structural Renovation Of Oando 11 rooms Guest House from 2 star to 5 Star	Oando Gas And Power	2018	Abuja
24.	Gas line design	Natural Gas Supply Line Design	Bablinks Resources Nig Ltd	2018	Warri, Delta
25.	Crude low line design	Crude Export Lines & Flowlines Design	Bablinks Resources Nig. Ltd	2018	Warri, Delta
26.	Gas Pipe Maintenance	Refurbishment And Maintenannce Of 3 Km 20" Pipeline At Izumbe	Addax/Bell Oil	2017	Izumbe, Imo
27.	LPG Gas Pump Upgrade	Design, Procure And Installation Of Gas Pump For Lpg Piping	Sc Johnson & Son Nig. Ltd	2017	Isolo, Lagos
28.	Natural Gas Pipe for Generator	Gas Power Detailed Study For Entire Power Plant And Design and installation of 4" 270mtrs Gas Pipeline With Power Generator	Sc Johnson	2016	Isolo, Lagos
29.	LPG tankfarm Design	Engineering Design of Lpg Tanks system for 4 LPG storage tanks (55tons, 40tons, 50tons & 30tons) with installation	Sentax Oil & Gas	2014	Lagos
30.	OML 13 Field Development	Engineering, Procurement, Fabrication and commissioning of OML 13 Qua Iboe field, process and facility development	Network E&P	2014	Eket, Akwa Ibom
